Enjoy your time better with
ChillMate Stainless Steel Cups

The better way to enjoy your drink!

Keeping your drink **COLD**
till the last drop!

produced by ecotanka

“Keeping drinks cold & fresh”

HOW IT ALL BEGAN ...

AARON BRODERICK
Chief Executive Officer

Lilian Zhu
General Manager

It all started in New Zealand back in 2003 when Aaron Broderick, the founder, went looking for **just one bottle** that would last a lifetime and keep drinks cool and fresh all day.

After many failed attempts trying to find a good safe drink bottle, Aaron chose to start manufacturing his own pure stainless steel bottles. In 2005, the first 1,000 bottles were made and they were so clean and fresh to drink from, hence he started the brand “ECOtanka”.

After designing and manufacturing drink bottles for 14 years, Aaron then looked at how to design and manufacture cups that truly spark joy.

While living in Queensland Australia in 2018, Aaron was drinking from some stainless steel cup samples he brought back from China, and noticed his drink stayed cold until the last drop, even left unattended for a couple of hours!

A new brand and new designs were in the making and then ChillMate was formed off the back of ECOtanka.

ChillMate is a brand owned by ECOtanka Global Limited and manufactured under the same system as all other ECOtanka products.

Try it for yourself!

*classic slim design for
everyday use
all ages and genders*

ChillMate 350 S

The ChillMate 350 S Cup is a small-sized and slim-designed pure stainless steel vacuum cup. It's perfect for whoever prefers the 350ml volume and the small size for an easy grasp and an easy fit in most cup holders or bags. Thanks to the excellency of its vacuum insulation, it's suitable for both cold and hot drinks or anything in between.

The better way to enjoy your drink!

#chillmate

Product Code: CM-S350
Cup Design: double-wall **vacuum**
Volume: 350ml

EXTRA OPTIONS

Bamboo & Stainless Steel Lid
Ideal for keeping insects and other air bound particles out of your drink.

Custom laser logo printing
Customize your logo on our products.

cold and crisp
till the last drop!

ChillMate 450 B

The ChillMate 450 B is a classic beer-glass-designed pure stainless steel cup.

The excellent vacuum insulation technology keeps ice cubes from melting too fast and your drink from getting watered down.

Take your time to really enjoy a nice cold drink until the last drop!

The better way to enjoy your drink!

#chillmate

Product Code: CM-B450
Cup Design: double-wall **vacuum**
Volume: 450ml

EXTRA OPTIONS

Bamboo & Stainless Steel Lid
Ideal for keeping insects and other air bound particles out of your drink.

Custom laser logo printing
Customize your logo on our products.

ChillMate LIDS

The bamboo & stainless steel lid is ideal for keeping insects and other air bound particles away from your drink day or night, indoor or outdoor. The lid will also help to keep your drink fresh and cool for longer in hot climates.

It is designed to complement the cup. *(It is not designed as an airtight, spill-proof lid.)*

The better way to enjoy your drink!
